

TEAMDRIVE JIVE

Once upon a time Betty and Kathy thought they had done an amazing job of building teamdrives that supported intuitive access, appropriate levels of sharing, current and projected needs, general awesomeness, and kicking Dexter to the curb. When Jay brought them chocolate to celebrate, they did the teamdrive jive.

♪ Teamdrive Jive ♪

(The MES Director was very happy too!)

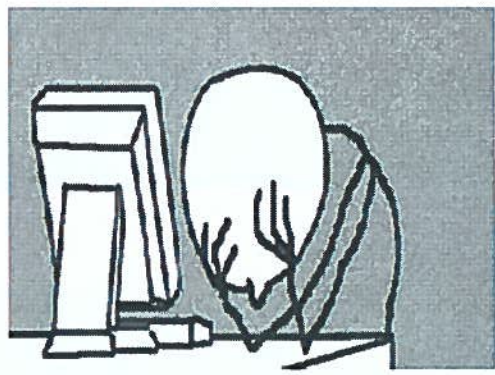

But then, something....

HAPPENED...

It turned out that the Director had

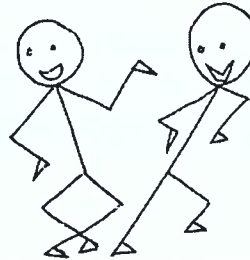

- ...MES teamdrives...
- ...HSE teamdrives...
- ...Dean's Office teamdrives...
- ...Ed. Sec. teamdrives...
- ...CMASTE teamdrives..
- ...and many project teamdrives...

way too many teamdrives.

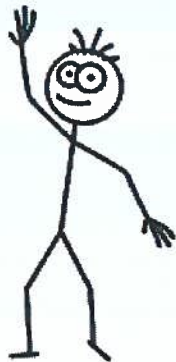

So Betty and Kathy put their heads together and thought. They decided to put all the teamdrives that only core staff had access to into a single teamdrive.
It took about a half hour to reorganize

EVERYTHING.

They were soon doing the teamdrive jive again.

The Director was happy too: she had eighteen fewer teamdrives to scroll through.

(Whether she danced or not remains a secret.)
