Electronic Email Approval  
Limitation

Microsoft Outlook 2007/2010	Yes	<p>The approval email is developed using HTML code. HTML code is not supported on Outlook. Therefore the email approval status field is grayed out and Submit button is disabled in the Outlook email client.</p> <p>In order to approve the transaction through Outlook, the user must perform the following steps:</p> <p>In top left corner of the email the following message will appear "<b>If there are problems with how this message is displayed, click here to view it in a web browser</b>". Click the message. Another message will be displayed which says "<b>View in Browser</b>". Click this option. The approval email will be opened in a new browser window. The email message may appear differently but will work exactly the same way as it works for Google Mail.</p>	Not-Supported
Mozilla Thunderbird 24.2.0	Yes	<p>The approval email is working fine with Mozilla Thunderbird 24.2.0. There are issues with previous versions of Mozilla Thunderbird for email approval.</p> <p>It is advisable to use Gmail with any of the recommended browsers for email approval.</p>	Not-Supported

3 Security Validation/System Limitation of the Approval Email in Google Mail

Email System	Tested	Validation /System Limitation	
Google Mail	Yes	<b>Validation:</b> Public Cookie is enabled in PeopleSoft Financials. Only the authorized approver can approve the transaction. If an approver forwards the approval email to another user, user authentication will prevent the user from approving the transaction.	
	Yes	<b>Validation:</b> If the approver has approved the transaction through the email once, and the approver tries to approve the transaction a second time, the approver will receive the following message, "There is no action required as the transaction has been actioned".	

Electronic Email Approval  
Limitation

	Yes	<b>Validation:</b> If the approver forwards the approval email to his/her personal email (Like: Gmail, Yahooemail or Hotmail), the approver will be prompted to login to PeopleSoft Financials using their CCID and password. Once authenticated, the transaction will be approved. If the user is not the authorized approver the following message "You are not authorized to approve this transaction".	
	Yes	<b>System Limitation:</b> In the event the PeopleSoft Financials application is down and the approver is trying to approving the transaction through the approval email, the transaction will not be processed and no error message will be displayed to the user. As the message notification is developed within the PeopleSoft Financials application, the message response can only be triggered when the PeopleSoft Financials application is available.	
iPhone	Yes	<b>Setting Required:</b> In order to approve transactions through email, users have to ensure that the mobile device browser is setup to accept the cookies. By default these are enabled in all the mobile devices.
